Youssef Hayyati

Full-Stack Developer

Rabat, Morocco | youssefhayyati1997@gmail.com | youssefhayyati.tech

PROFESSIONAL SUMMARY

Full-Stack Developer with 4 years of experience building and maintaining production web applications with Laravel (PHP) and Vue.js / Nuxt.js. Works across the stack: REST API development and integration, relational data modelling in MySQL and PostgreSQL, real-time and message-driven services with RabbitMQ and WebSockets, and containerised delivery with Docker. Focused on application security, data protection and resolving production defects that affect system stability.

TECHNICAL SKILLS

Languages: PHP, JavaScript, TypeScript, SQL, HTML, CSS, SCSS

Backend: Laravel, REST APIs, MySQL, PostgreSQL, RabbitMQ, Laravel Reverb (WebSockets)

Frontend: Vue.js, Nuxt.js, React, Tailwind CSS, GSAP, Three.js (WebGL)

DevOps & Tools: Git, GitHub, Azure DevOps, Docker, Docker Compose, Linux

PROFESSIONAL EXPERIENCE

Full-Stack Developer

Scientiae - Rabat, Morocco | July 2024 - Present

- Develop and maintain full-stack web applications in Laravel (PHP) and Vue.js / Nuxt.js, collaborating with software engineers, designers and data scientists to deliver robust, scalable solutions.
- Implement confidentiality and data-protection controls across application features, strengthening how sensitive data is stored and handled.
- Identify and resolve critical software defects in production, improving system stability and security.

Full-Stack Developer

E-Impact - Fez, Morocco | July 2023 - July 2024

- Designed, coded and tested software solutions for client web projects.
- Analysed software requirements and worked with team members to design and deliver technical solutions.
- Evaluated new software products and technologies, recommending changes to enhance existing systems or build new ones.

Full-Stack Developer (Internship)

Smart Transformation - Fez, Morocco | February 2022 - August 2022

- Updated existing integrations to accommodate new REST API versions and enhancements, keeping client-facing functionality working without interruption.
- Produced clean, high-quality, well-tested code for client projects.

EDUCATION

Master's Degree, Intelligent Systems & Networks

Faculty of Sciences and Techniques (FST), Fez, Morocco | 2019 - 2022

Bachelor's Degree, Computer Engineering

Faculty of Sciences and Techniques (FST), Fez, Morocco | 2018 - 2019

Mathematics, Physics & Computer Science

Faculty of Sciences and Techniques (FST), Fez, Morocco | 2015 - 2018

LANGUAGES

Arabic: Native proficiency | English: Fluent | French: Intermediate

ADDITIONAL

Soft skills: Collaboration, organisation, strong work ethic | **Interests:** Sport, digital painting
